

ILMA[®]

INNOVATION SYSTEMS

Presente sul mercato nazionale e internazionale da oltre 25 anni, ILMA è oggi una delle aziende più conosciute e stimate nella costruzione di utensili per la lavorazione del legno.

Forte di un team giovane e dinamico, abbiamo da sempre attribuito un'importanza fondamentale alla qualità, scegliendo di costruire i nostri utensili in Italia, con materiali certificati; l'organizzazione produttiva, flessibile come oggi il mercato richiede, ci permette di servire i clienti in modo veloce adattandoci anche alle esigenze più particolari.

From more than 25 years in the national and international market, ILMA is leader in production of woodworking tools.

With a young and dynamic team, we've always conferred value on quality, choosing to manufacture our tools in Italy, with certified material; with our production organization, flexible as market required, we can guarantee to our customers an excellent sale service, for special requirement too.

Seit mehr als 25 Jahren auf dem nationalen und internationalen Markt vertreten, ist ILMA heute einer der bekanntesten und angesehensten Hersteller von Messern für Holzverarbeitende Maschinen.

Gestützt auf ein junges, dynamisches Team haben wir immer schon der Qualität grundsätzliche Bedeutung beigemessen und deshalb beschlossen, unsere Werkzeuge mit zertifizierten Materialien in Italien zu fertigen. Durch die flexibel auf alle Marktentwicklungen reagierende Organisation unseres Produktionsprozesses können wir Kundenwünsche rasch umsetzen und dabei auch den speziellsten Anforderungen gerecht werden.

Presente en el mercado nacional e internacional desde hace más de 25 años, ILMA es hoy una de las empresas más conocidas y apreciadas en la fabricación de herramientas para la madera.

Con la fuerza de un equipo joven y dinámico, hemos otorgado siempre una importancia fundamental a la calidad, eligiendo fabricar nuestros utensilios en Italia, con materiales certificados; la organización productiva, flexible como hoyen día exige el mercado, nos permite servir a los clientes de una manera rápida, adaptándonos también a las necesidades más especiales.

Наша компания работает на национальном и международном рынках уже более 25 лет, в настоящее время ILMA один из ведущих производителей режущего инструмента для деревообработки.

ILMA – это молодая и динамичная команда специалистов, которая всегда придает большое значение качеству, предпочитая изготавливать весь инструмент в Италии, из сертифицированных материалов. Благодаря гибкой организации производства, мы можем уверенно идти в ногу с современным рынком и оперативно обслуживать клиентов, быстро адаптируясь к потребностям заказчика.

Made

Scegliete "Made in Italy": troverete in ILMA il miglior partner per i Vs. affari.

Choose "Made in Italy": you'll find in our firm, the best partner for your business.

Wählen Sie die Sicherheit des "Made in Italy": Und finden Sie in uns den idealen Geschäftspartner.

Elijan "Made in Italy": encontrarán en ILMA el mejor socio para sus negocios.

Выберите: "Сделано в Италии" : и найдёте ILMA, лучшего партнера для Вашего бизнеса.

Circular saw blades

Kreissägeblatt

Hoja de sierra

Дисковые пилы

Per poter garantire la migliore qualità di taglio, è necessario scegliere la lame più idonea al lavoro da eseguire. Effettuare i dovuti controlli su albero e flange di montaggio e verificare la giusta velocità di rotazione oltre che al perfetto bloccaggio della lama stessa.

Si consiglia che lavorino almeno 2 taglienti contemporaneamente, per poter ottenere una buona qualità di taglio.

To guarantee the best cutting quality, it's necessary to choose the more suitable saw blade for the job you've do. Carry out any checks in the tree and in the flanges and verify the correct relation speed. Blade must be perfectly blocked.

To obtain a good quality cutting, at least 2 teeth must work at the same time.

Um die bestmögliche Schnittgüte zu erreichen ist es notwendig das richtige Messer für die zu verrichtende Arbeit auszusuchen. Die notwendigen Kontrollen an der Welle und dem Flansch vornehmen. Die Drehgeschwindigkeit prüfen und die richtige Fixierung des Messers sicherstellen. Es wird empfohlen dass mindestens 2 Schneiden gleichzeitig arbeiten um eine gute Schnittqualität zu erreichen.

Para poder garantizar la mejor calidad de corte, es necesario elegir la hoja más idónea al trabajo que ejecutar. Efectuar los debidos controles sobre árbol y arandelas de montaje y averiguar la justa velocidad de rotación más allá de que al perfecto bloqueo de la hoja misma.

Se aconseja que trabajen al mismo tiempo al menos 2 filos en el mismo tiempo, para poder conseguir una buena calidad de corte

Для гарантии лучшего качества разреза, необходимо выбрать пилу подходящую для конкретного вида работы. Осуществить контроль пилы на валу и фланце, убедиться в правильной скорости вращения, а также в том что пила хорошо зафиксирована. Для получения хорошего качества резания, необходимо что бы, как минимум, два зуба пилы работали одновременно.
